

SANTHOSHA NARAYANA NAIK

Software Engineer | Full-Stack Developer (Java , MERN)

Bengaluru, India | +91 89709 00825 | santhoshanaik02@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Full-stack developer with hands-on experience across Java, the MERN stack, and applied machine learning, built independent projects in full-stack development internship. Comfortable working end-to-end — REST APIs, relational and NoSQL databases, and responsive UI — with a working foundation in OOP and data structures. Seeking a Software / Technology Analyst role where I can contribute to production-grade delivery from day one.

TECHNICAL SKILLS

- **Languages:** Java, Python, SQL, JavaScript, HTML, CSS
- **Frameworks & Libraries:** React.js, Node.js, Express.js, MERN Stack
- **Databases:** MySQL, MongoDB
- **Core Concepts:** Object-Oriented Programming, Data Structures & Algorithms, REST APIs, Full-Stack Development, Agile/SDLC basics
- **Tools & Platforms:** Git, GitHub, Eclipse IDE, VS Code, MySQL Workbench, Antigravity

EXPERIENCE

Prinston Smart Engineers — Full Stack Web Development Intern

Nov 2024 – Jan 2025

- Built and tested a full-stack web application using HTML, CSS, and the MERN stack, to reduce the backend loading time and improved the accuracy by 60%
- Worked in an Agile environment to deliver the requirement features within the internship period
- Debugged and resolved 50% functional issues pre-release, improving application stability and UX

PROJECTS

Online Grocery Store | [Live Demo](#)

MERN Stack

- Built a full-stack e-commerce platform enabling users to browse, search, and purchase groceries online, with end-to-end functionality from cart to checkout
- Designed and implemented API endpoints covering product catalogues, cart, and order management
- Deployed on Vercel with a MongoDB Atlas backend.

Gait Anomaly Prediction using CNN | [Live Demo](#)

Tech: Python, Convolutional Neural Networks, Computer Vision

- Built a video/image-based gait analysis system using CNNs to classify abnormal walking patterns, achieving 96% accuracy on the test set
- Trained on CASIA-B dataset, covering 4 gait pattern classes
- Deployed the trained model as an interactive real-time demo on Hugging Face Spaces

Tech World | [Live Demo](#)

Tech: MERN Stack

- Built a content-sharing platform where admins publish technology articles and users read and engage via an integrated contact/feedback section

CERTIFICATIONS

- **Java-Centric Backend Development with Python Essentials** — Pre-Training Program, Revature | May 2025
- **Programming in Java** — NPTEL | Oct 2024
- **Java Programming** — Great Learning Academy | July 2024

EDUCATION

Master of Computer Applications — Rajarajeswari College of Engineering, Bengaluru

CGPA: 8.73 / 10 | Feb 2024 – Dec 2025

Bachelor of Computer Applications — LB and SBS College, Sagara

Percentage: 76.61% | Jan 2021 – Dec 2023
